

AMENDMENT TO THE CLAIMS

Kindly amend the claims, without prejudice, without admission, without surrender of subject matter, and without any intention of creating any estoppel as to equivalents, to read as follows:

1. (Currently amended) A preparation method of active constituents of honeysuckle stem, which comprises:

(a) a step of reflux-extracting honeysuckle stem with water, filtering it, carrying out layer separation by adding equivalent water-saturated low grade alcohol to said filtrate, and concentrating it under reduced pressure ~~to obtain primary active constituents~~; and

(b) a step of purifying the ~~primary active constituents~~ concentrated filtrate with polyamide resin or polyvinylpyrrolidone resin ~~to obtain secondary active constituents~~, and then purifying again with octadecylsilane resin to obtain final active constituents,
wherein said active constituents comprises iridoid glycosides.

2. (Original) The preparation method of active constituents of honeysuckle stem according to claim 1, wherein said water-saturated low grade alcohol is saturated propyl alcohol or butyl alcohol solution.

3. (Original) The preparation method of active constituents of honeysuckle stem according to claim 1, wherein said active constituents comprise sweroside and loganin as effective ingredient.

4. (Original) The preparation method of active constituents of honeysuckle stem according to claim 3, wherein said active constituents comprise 15.1 to 72.1 wt % of sweroside and 13.9 to 41.4 wt % of loganin.

5. (Currently amended) An anti-inflammatory and analgesic drug which comprises ~~said active constituents of honeysuckle stem prepared by the method according to claim 1~~ sweroside and loganin as effective active ingredients, wherein the drug is administered alone or with a pharmaceutically acceptable carrier.

6. (Canceled)

7. (Currently amended) The anti-inflammatory and analgesic drug according to claim [[6]] 5, wherein said ~~active constituents~~ effective active ingredients comprise 15.1 to 72.1 wt % of sweroside and 13.9 to 41.4 wt % of loganin.

8. (Original) The anti-inflammatory and analgesic drug according to claim 5, which is prepared in the form of tablet, powder, granule, capsule, syrup, skin ointment or injection.

9. (Withdrawn) An anti-inflammatory and analgesic drug which comprises sweroside represented by the following Chemical Formula 1:
